WHAT'S NEW

Doxem Plus Fire Ant Bait

Control Solutions Inc.

\$58

4 lb Jug
2/Case
#1514616

New from Control Solutions Inc., Doxem® Plus Fire Ant Bait, a triple mode of action solution for controlling fire ants all season long. It contains three active ingredients: indoxacarb, novaluron, and pyriproxyfen, and is labeled for use in residential and commercial lawns and landscape areas, golf courses, recreational areas, and industrial sites. Doxem® Plus Fire Ant Bait works to kill the queen and workers, resulting in the elimination of the entire colony. One application controls fire ants for an entire season. Doxem® Plus Fire Ant Bait is labeled for application to individual mounds or as a broadcast treatment for larger areas. It is not a restricted use product, allowing applicators to use the product where they need it without the burden of additional record keeping.

Doxem® Plus Fire Ant Bait is labeled not only for Red Imported Fire Ants, but also for bigheaded ants, pavement ants, and turfgrass ants.

Visit csi-pest.com for more information.

TECHTIP

Solving Your Customer's Moisture and Humidity Problems Can Be A Profitable, Beneficial Service Offering and Integrated Pest Management At Its Best.

Most every home has a humidity or moisture issue due to air leakage that is likely creating other problems within the home. For example, homes with ventilated crawlspaces are often one of the most overlooked breeding grounds for pests. Newly constructed homes that are built tighter with less air leakage and more insulation creates better thermal efficiencies, but also increases the moisture load on the home. Moisture comes from a number of sources. Cooking, bathing, washing, sweating, and breathing are internally generated sources by the homeowner. Leaks in the foundation, or the roof, or plumbing leaks are others.

Dehumidifiers can be an effective solution for homeowners looking for a GREEN or

natural alternative to controlling certain pests within a home. Controlling moisture is truly integrated pest management at its best.

Dehumidification is a relatively easy service to add as you already have an existing customer base. In addition, there does not need to be added cost for new personnel - you can train your existing technicians. This can also create more opportunities within the slower winter seasons. It is essentially an extension of an already provided service, such as exclusions.

Learn more about Offering Dehumidification Services in our latest Maximizing Profits series which you can download by [clicking here](#).

Period 2: May 2023 - August 2023

GET AHEAD AND SAVE

2023 PEST PROFITS REBATE INFORMATION:

- The 2023 Pest Profits Program is divided into three periods. Each period begins with new goals and special offers. **Rebates do not carry over between periods.**
- To enter, visit **CSI-PestProfits.com** and upload your purchases by September 15, 2023.
- To qualify, the participating end-user must earn a **minimum rebate of \$200**. Submit your invoices all at once or as you go. Earn **\$2,000 or more** and **DOUBLE** your rebate. The minimum rebate and bonus rebate must be achieved every program period.
- For period two rebates, products must be purchased from an authorized CSI distributor between **May 1, 2023 and August 31, 2023**.
- Rebates will be paid out via your choice of virtual or physical VISA.
- This is an end user promotion. Only purchases from authorized distributors may be used to qualify. Internet sales and purchases do not qualify. Distributors, dealers, and retailers are not eligible. End user purchases used to qualify for this promotion are not eligible for any other free goods, cash back, or rebate programs.

Stay tuned for more!

Pest Profits will continue with a new period in September with new goals and savings!
